

Invitation: free Google Map listing for GM-free businesses

(personal and private addresses and dwellings will **not** be included)

Hello Friends:

You're invited to list your business on a Google map of GM-free businesses in Australia. It's a quick, simple and cost-free way to promote your commitment to providing healthy, GM-free foods.

Gene Ethics will post the map on our website at <http://www.geneethics.org>. You are invited to supply the information requested below, to appear on your pop up 'flag' on the google map. You are welcome to put a link to the map on your own website.

The GM-free business map is a free promotional opportunity for your business and a public service to shoppers who are seeking GM-free foods. It will show that GM-free enterprises far outnumber the few irresponsible growers who grow GM canola and cotton.

To be included on the GM-free business google map, please complete and return the following information. The fields marked with * are compulsory and the others are optional.

We look forward to your participation.

* Business Name:

* Kind of business:

* Street address(es):

Number of employees:

Land area (farms):

Telephone:

Email:

Website:

* Authorised by: Title: **(not for publication)**

Say why your business wants/needs to be GM-free:

..... up to ten words.

Send a photo of your premises and staff (include your business name and logo if possible)

Order corflute GM-free Zone signs here: <http://www.geneethics.org/actnow/display/9>

Best wishes,

Bob Phelps

Executive Director
